#### Appendix 1

Email to Cllr Baird from Marina Grant, Principal Housing Officer, Sutherland

"To summarise our call, as advised the properties in Lairg are Albyn Housing managed.

The scheme consists of a mix of FIT homes and wheelchair accessible bungalows. The FIT homes are allocated through nomination. The nominations can come from various bodies eg,

NHS, Social Work, Nurses, Occupational Therapists, Highland Council etc. The FIT homes are technology enabled.

Albyn will allocate the bungalows through the Highland Housing Register. The Highland Housing Register is a needs points-based system. Applicants will have their individual housing need assessed according to the Housing Need Categories and Priorities set out in the Policy based on the information that applicant has provided, and allocations will be made based on need and points.

Need to Reside - The intention of this points category is to recognise that households in the following circumstances have a relationship to a particular area. To be eligible for these points applicants must:

 $\cdot$  be permanently employed or been offered permanent employment in the area.

 $\cdot$  already have their main residence within the area.

An application will be awarded these additional 20 points if they have a need to reside in the area for the reasons above.

The above provides a summary of part of the Allocations Policy, full details of the policy can be found on the Highland Council website under, Housing/Apply for a House.

I am aware that Albyn is looking to allocate these properties shortly as they will be ready for handover in a few weeks. I would encourage anyone who does not have an application to submit one. Applications can be completed online through the Highland Council website Housing/Apply for a House. Registered Social Landlords work from the same allocation list as Highland Council."

#### Appendix 2

Report of Meeting with Chris Lee, Foundation Scotland 22nd January 2024. Current available balance: £22,738.51

#### 1. Secretariat Fee

Circa £682.00 in 2024 due in March. In the past this has been paid in January but can't be correctly calculated until March when the donation is paid so it makes more sense to recalibrate Secretariate and Micro Grant Cycles to March/ April.

#### 2. Micro Grants

The application process is a simple email to LCC. Awards up to £250. Last payment made 22/08/2023.

#### 3. Local Improvements Fund

This is a 2K annual fund to either purchase services or distribute to other groups to carry out local improvements to community areas and assets. Last payment date 15/08/2023 reporting due 15/08/2024 with only £380.99 available until the next payment date.

#### 4. Apprentice Travel Scheme

2K – this was advertised and quickly over-subscribed. Date of payment was 03/10/2023 reporting scheduled for 03/10/2024 by file upload. The file to detail all awards made.

#### 5. Main fund grants administration – Portal and decisions.

There was a discussion about transparency, integrity and conflicts of interest regarding panel decisions when the LCC is the also applicant. It was agreed that SM would approach LDLC and possibly Hayley Bangs of KoSH about forming a decision making panel specifically for making decisions on LCC applications to the fund.

MJ also suggested looking at the current conflict of interest policy in the LCC constitution, and CL suggested an additional policy could be adopted to add an additional layer of public confidence in the process and clear guidance for LCC meetings when it is considering applications.

Action: SM to approach LDLC and KoSH to discuss.

CL spoke about the panel portal system and the previous practice of using the secretariat as single point of contact. The Panel Portal changes the previous arrangement slightly as its now the primary way of sharing assessments and other files and information. CL to email MJ whenever assessments are ready prior to monthly meetings. It was also agreed to keep decision making to monthly meetings as far as is possible.

Action: Miranda to set up a LCC Sec email and register for the panel portal.

This is now complete.
